About JAYYAD

JAYYAD International Trading is Mohammad Azam Khan's B2B Himalayan Pink Salt sourcing and export business. It is designed for international buyers who need a clear starting point for product, packaging, destination and commercial discussions.

How a buyer inquiry is handled

1	Share your requirement	Tell us the product type, intended application, estimated quantity, pack format and buyer market.
2	Select a trade-term preference	Choose FOB - Pakistan port, CIF - named destination port, or request guidance in the RFQ form.
3	Confirm practical details	Product availability, packaging, documentation and destination requirements are reviewed for the requested program.
4	Receive a focused quotation response	Final commercial and shipment details are confirmed for the exact product, volume and destination.

Product discussion

Himalayan Pink Salt requirements may include edible salt formats, granules, wellness or decorative product ranges, animal lick salt and related buyer-led programs. Exact product format, grade, packaging and availability are confirmed through the RFQ process.

RFQ Information Checklist

A complete request helps the export team prepare a more relevant response.

Product	Product name, format, grade or intended use
Quantity	Sample volume, trial quantity, pallet quantity or container estimate
Packaging	Bulk bag, retail pack, private label, carton or pallet requirement
Market	Buyer country and intended application or sales channel
Shipping term	FOB - Pakistan port, CIF - named destination port, or guidance requested
Destination port	Required for a CIF quotation
Documentation	Any product, packaging or import documentation required for evaluation

Important commercial note

FOB and CIF selections in the RFQ are buyer preferences used to prepare the discussion. The final trade term, port, documentation, product specification, availability, freight-related items and other commercial details must be confirmed in the quotation and transaction documentation.

Office & Contact Details
